

Android APK installation guide

For installing the Delightex Edu mobile app

Why install the Delightex Edu APK on your Android devices

Since the Delightex Edu mobile app isn't available on the Google Play store in the United States and in Australia, installing it through the APK is needed to get the mobile app on your Android devices.

Once the APK app is installed, it'll work the same way as if it had been downloaded from the store. Follow the below steps to install the Delightex Edu Android APK.

Step 1. Allow installing unknown apps

In order to install an APK downloaded from a website browser, your device must first get your permission to do so.

Allow your website browser to install APKs by modifying your phone's Settings.

1. Find your device's **App settings** by going to **Settings** and then **Apps** or **Apps & Notifications**. Depending on your device, your menus might differ slightly.
2. Open your app settings' menu and go to **Special (app) access**.
3. Then, go to **Install unknown apps** to enable it. Choose your web browser and enable **Allow from this source**.

Step 2. Installing the Delightex Edu APK

4. In your web browser, go to the **Delightex Edu website** and click "Download Android APK" in the footer or go back to the page where you got this guide from.
5. Click the "**Download Android APK**" button to download the Delightex Edu app APK. Accept questions about downloading this file as it's from a safe source.
6. Go to your **Downloads** and open your downloaded APK file and select the app you granted permission to. Follow the steps and accept the steps to **Install** it.
